Great Health, Naturally!

Is Synthetic Real?

Many people have heard of the wonderful benefits of vitamin B. But, over 95% of vitamin B products sold are synthesized in the laboratory in an attempt to match natural vitamin B composition!

These synthetic B products are derived artificially from coal tar, petroleum by-products and petrochemicals. Our bodies were not designed to assimilate or process this insult of non-food nutrition. That is why many people suffer an upset stomach when taking multi-supplements. Chemically synthesized vitamin B, created in a test tube, misses much of the intended goodness provided by whole nutrient vitamin B complex found in B- Radiant.

Master Formulator Dr. Thomas Fay Invents Natural B-Radiant

After thirty years of study and experimentation formulating high-quality, plant-based supplements, Dr. Thomas Fay has created a proprietary probiotic blend B complex that is 100% healthy and natural.

Anti- Aging

B-Radiant nourishes your cells DNA, delivering "body of light" energy found only in raw live organic foods. In fact, synthetic B vitamins (and all synthetic products) actually accelerate aging and cellular destruction.

Take B- Radiant in a shot of your favorite juice!

Safe and Natural Benefits

B-Radiant delivers maximum benefits to your body in a safe and natural way.

The health benefits from Choosing Nature's B-Radiant are abundant:
